CHECK ON THE STATUS OF YOUR REPAIR:

After the product is received, an evaluation and an inventory of any included accessories will be conducted. This usually occurs 2-3 business days from the date the unit is received.

Once the evaluation is complete your product will be assigned a Service Order Number. Products under warranty will then enter the repair process. Estimates will be sent for all billable repairs.

Pre-approved estimates and warranty repairs will be processed immediately. If we do not receive a response from you, we will send a reminder letter. Products left in our possession without any communication from you will be considered abandoned after 90 days. After 90 days we reserve the right to discard abandoned products without any form of compensation.

You can also check the warranty status or the cost (and make payment) for a billable repair, using your name and the product's serial number at:

If you do not find your product listed and or do not receive a letter from us within 20 business days from the date you sent it, please contact your carrier (U.P.S.; Post Office etc.) and request that they track your package. If we received the package, they will supply you with their Proof of Delivery information. Please contact Customer Care with this information as soon as possible at 1(800) 622-6372 from 8:30 AM to 7:00 PM, M-F, ET). We will make every effort to identify and locate your product.
