

Light up your style. Brighten your image.

Bright Capture Technology

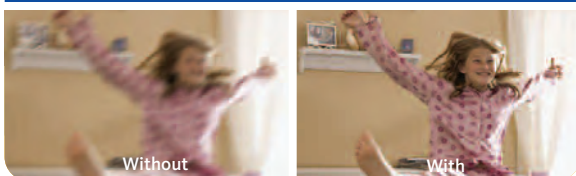

See It Before You Shoot It: See what you're shooting even in the dark. When you're ready, just frame it and take the picture.

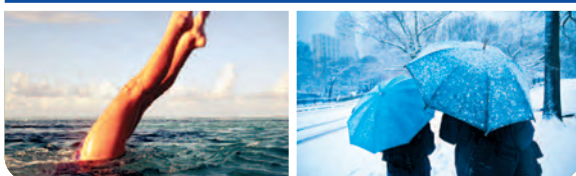

Capture Bright Images: Capture a bright and clear image even in dim light.

Digital Image Stabilization Mode

Digital Image Stabilization Mode lets you capture sharp images free from the blur sometimes caused by camera shake or moving subjects.

All-Weather Protection

The durable design resists water and dust so you can shoot with confidence regardless of weather.

- ▶ **All-Weather** Shoot in rain or shine, at the beach or on the slopes. Sealed and coated in all the right places, the Stylus® 710 resists water, snow and dust.
- ▶ **Bright Capture Technology** Because of this unique Stylus feature, low light is no problem. Even when it's too dark for your eyes to see, you can preview your subject clearly on the LCD, then capture an image that's clear and bright without having to use a flash.
- ▶ **Digital Image Stabilization Mode** Capture crisp, clear pictures with high ISO sensitivity and fast shutter speed even if your subject is moving.
- ▶ **2.5" LCD** Shooting and sharing are so much easier and more enjoyable with the view you get on this bright, premium-sized LCD.
- ▶ **7.1 Megapixel CCD** Capture subtle detail in high resolution and create larger printed images without loss of clarity.
- ▶ **15x Total Seamless Zoom** 3x optical zoom plus 5x digital zoom moves you closer to your subject without taking a step.
- ▶ **TruePic TURBO™ Image Processor** With this exclusive technology, you not only get truer colors – you also get quicker startup and shutter release times so you can shoot faster.
- ▶ **28 Shooting modes including QuickTime® Movie with Sound** Get the best result in any situation with advanced options – landscape, portrait, indoor, night scene and more, including three underwater settings.
- ▶ **One-Touch Easy Print** Connect to any PictBridge™-enabled printer and enjoy photo lab quality prints. No computer needed.
- ▶ **Built-In Help Guide** No need to check the manual. A brief in-camera description helps you quickly choose the ideal setting for each situation and purpose.
