

OLYMPUS[®]

Your Vision, Our Future

OLYMPUS
Endo**Therapy**
BEYOND THE SCOPE

**Maximum force, minimum hassle — today's most reliable
and effective injection performance**

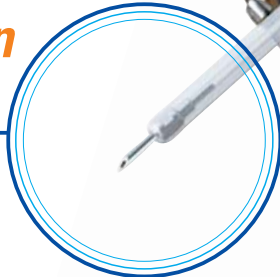

Single Use Injector

Injector
Force
Max[™]

Thanks to improved needle extrusion capability, enhanced click response, and excellent liquid feeding, the InjectorForce Max™ maximizes endoscopic injection performance throughout the gastrointestinal tract

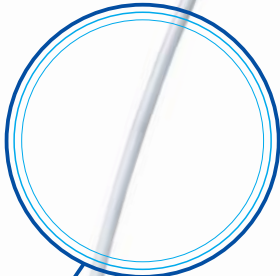

Improved Extrusion Performance

Enhanced piercing capability with improved extrusion performance delivers a smooth, reliable, effective injection every time

In addition to featuring an extraordinarily sharp needle tip, the InjectorForce Max™ offers much more effective extrusion performance over previous models. The combination of the sharp tip and improved extrusion performance provide just the right injection you need.

Improved Liquid Feeding

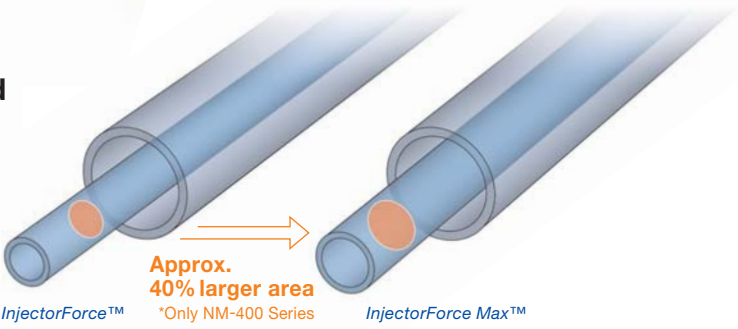

Improved Click Response

New ergonomic handle design and enhanced click response allow you to manipulate the needle tip more easily and accurately

Featuring an all-new ergonomic handle design and enhanced click response when you try to extrude the needle, the InjectorForce Max™ enables you to work with comfort and confidence.

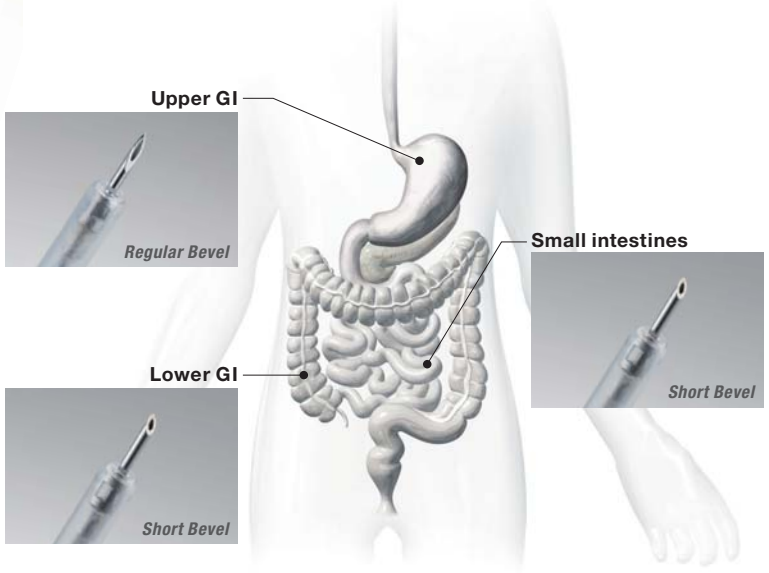

A larger lumen ensures that the injection solution flows smoothly and quickly through the needle lumen

The InjectorForce Max™'s lumen is larger than the previous Injector Force's lumen to enable fluid to flow more smoothly and quickly, helping you to perform injections more efficiently and effectively than ever before.

Wide lineup of versatile needles supports applications throughout the gastrointestinal tract

The InjectorForce Max™ wide-ranging lineup includes models with various needle diameters that can be passed through various scope channel diameters. The new design also includes an extensive selection of needle lengths and sheath lengths for use throughout the gastrointestinal tract from the esophagus and stomach to the small intestine and colon.

Specifications

	Model	Compatible Channel	Working Length	Bevel	Needle Length	Gauge
Upper GI	NM-400L-0421	2.8 mm	1650 mm	Regular	4 mm	21 G
	NM-400L-0423				4 mm	23 G
	NM-400L-0425				4 mm	25 G
