| 4 pm – 5 pm | Dr. Paul Akerman  
GI Procedure Suite: Hands-On ERCP Demonstration |                                                                                   |                                                                                     |                                                                                      |
| 5 pm – 5:30 pm | Dr. Jonathan Cohen  
“Understanding a New Perspective: The Atlas of Narrow Band Imaging and Magnification High-Definition Endoscopy” |                                                                                   |                                                                                     |                                                                                      |

**R.S.V.P. Required: Exclusive Hands-On Porcine Models Session**  
(Wednesday, May 24th, 11 am – 12:30 pm)  
Do you learn by doing? Then visit the Olympus’ Information desk to confirm a spot in this, “not to be missed” session. With the devices in your hand, hone and develop your skills using porcine models to realistically simulate an ERCP procedure. Physicians will be on hand to answer questions. Space is limited, so please reserve your spot today.
