E-MODE button

Adjusts the live view mode.

E-MAIL button

E-mails the picture(s).

E-PRINT button

Prints the picture(s).

HOW TO PRINT PICTURES

PRINTING A PICTURE

Using the OLYMPUS Master software (included), you can make prints of your pictures using your own photo printer.

After installing OLYMPUS Master, open the program and click the "Print Images" icon on the main window. You can choose the type of print you wish to make and use the "Print" button to print your images. To print a layout, select the "Print" button and add them to one of the many layouts within OLYMPUS Master. For detailed instructions, please refer to the "Help" menu in the software.

You can also order prints online using the "Print Online" feature in OLYMPUS Master.

What can you do with OLYMPUS Master software?

- The provided software CD includes OLYMPUS Master software for viewing and editing images. Once installed, you can take advantage of viewing and adding your images as shown below. For information on how to use OLYMPUS Master software, see Help after installation.

- Install OLYMPUS Master on your computer from the provided CD-ROM. OLYMPUS Master allows you to register as the camera's owner. Doing so will enable you to receive information on software or firmware upgrades from Olympus.
